Women Told to Stand Behind Dry Law

CALLING upon the women to observe the laws of the land as a matter of personal conduct, Mrs. Robert J. Cullen, chairman of the state temperance committee, observed the state fair yesterday, cautioning them to stand behind the law.

"I have every reason to believe that the women committed to the temperance cause will stand behind the law," she said. "I have every reason to believe that the women committed to the temperance cause will stand behind the law."

URGES LIBERAL PARTY PLAYS DRY LEAGUE

New York, Feb. 5.—A new political party to be called the Liberal party, the executive religious, political and social liberty in the United States and extirpate all those organizations that are holding liquor in bondage, was proposed at a meeting of the Association Against the Prohibition Amendment, the London Church, president of Chicago, tonight.

Liberalism for church groups, he declared, are now aiming to suppress intemperance, public dancing, house raising, bridge playing for profit and radio programs on Sunday, among other things.

He specifically attacked the Anti-Saloon League, the Ku Klux Klan and the Lord's Day Alliance, and asserted the United States never has had religious liberty.

Representing the opinion that after Mr. Hoover and Al Smith would have been whipped and hanged under the religious laws of the Puritans, he continued:

"All these fanatical principles are almost entirely in operation at the present day. The Lord's Day Alliance is going along with the police, pushing by its influence the law and imprisonment against all who violate its regulations. It is holding view of what Sunday should be."

A few months ago a group of splendid men and women, all citizens, met in New York City and tried to find the indication of that alliance because they had organized the National Association of Women, and they had organized the National Association of Women.

The Anti-Saloon League has flourished until it has become, according to the speaker, an organization which does not hesitate to carry on an inordinate course which strikes at the very heart of liberty, in its total support of the 18th amendment.

These political groups of the United States, he said, are all the more dangerous because they are all the more numerous, and they are all the more powerful.

LLOYD GEORGE IS ATTACKED AS 'GREED BOSS'

London, Feb. 5 (AP)—David Lloyd George, veteran statesman who, as premier, piloted Britain through the trying years of the war, is coming to the fore as the most bitter attacked man in England's public life.

Sir Charles Malet, former Liberal member of Commons, charged recently in a book that Lloyd George made millions for his party by selling titles and honors to wealthy men during his premiership. He definitely implicated the veteran Welshman as leader of the Liberal party.

That makes an open rupture in the ranks of the Liberals and threatens the future of the party. The Liberal party now holds a more powerful position in Commons than at any time since the coalition government of 1922.

Viscount Grey charges that Lloyd George, who is the financial supporter of the Liberal party, has become overwhelmingly dictatorial because of his wealth.

"Never before," the viscount says, "has a leader of a great English party been in a position to say to that party: 'You have no party fund, and unless you do what I say you will have no money.' That is a position fatal to any party."

It is therefore absolutely necessary for me to decide what when the next election comes, if things are as they are today with regard to the leadership of the Liberal party. The Liberal council must find out under what leadership it will work with its own organization and its own funds.

The Liberal party now holds a more powerful position in Commons than at any time since the coalition government of 1922.

National operation on a large scale as this could show such endurance, and growth, unless it were making good in pleasing guests.

So, naturally, these hotels go to great lengths to please people.

That's why the Statler dining rooms take special pains with their foods, and their menus, and their prices, that's why Statler employees are trained to give courteous, interested, helpful service—all ways.

34TH YEAR OF DEACONESS HOSPITAL

Today is the 34th anniversary of the dedication of the New England Deaconess Hospital.

Dr. H. H. Wilson of Chicago is the only living member of the group who met to dedicate a hospital under the direction of the Methodist Church for the city of Boston and New England.

The hospital was founded in an estate on Massachusetts ave. next door to the New England Deaconess Home. The site was only large enough to accommodate 11 beds.

The equipment of the hospital was to a large extent made up of strong backs and undependable furniture. There was no telephone, no elevator, few modern conveniences of any kind. One thermometer constituted the sole thermal register for the entire list of patients. A basket ingeniously arranged on a cord and pulley served as a means of transportation of this precious instrument from floor to floor. The entire budget for the first year was less than \$200.

For 11 years the building was utilized. In 1917 the committee bought the present site between the Riverway and Huntington and Longwood station. A building was built for its patients, a kitchen and provisions were made on the premises, and the hospital was as necessary as ever.

TO DIVIDE WORK

From 11 patients in 1909 the hospital now in 1930 has grown to a daily census of about 250 to 260. Because of this enormous growth it was decided at a recent meeting of the board of directors of the New England Deaconess Association to separate the duties of the hospital and the nursing home into two distinct entities and with the New York group the Palmer Memorial, the New England Deaconess Hospital and the Nursing Home under one corporation, the New England Deaconess Hospital—Nursing Home, distinct from that of the association.

Dr. Warren F. Cook of Providence has been appointed general superintendent of the new corporation and has assumed his new duties. The hospital will now have the same staff and the same building, but the duties of the two distinct entities will be clearly defined. The new corporation will have the same staff and the same building, but the duties of the two distinct entities will be clearly defined.

There has been a marked increase of cases in both Palmer and the Deaconess in the year 1929 an increase of 2000 cases in the laboratory department, and in great has been the demand that an "outpatient" department has been opened at Palmer. The Deaconess children's department takes care of a number of diabetic cases.

According to Dr. Cook's statement 75 per cent of the males served in patients are cases of cancer, diabetes, thyroid, gastric and other chronic diseases.

CHARGE BELOW COST
The actual daily cost in the hospital for each patient has been computed to be \$100. More than half of those being attended at the Deaconess pay only \$75 per day.

Hedie Selma Ekron, Henry W. Taft, Mile Zorah Hedary, Princess Der Ling

West met both the Near and Far East when members of the league for political education met at a luncheon in New York.

Taft upheld the traditions of the Orient, while Mile, Ekron, who is a daughter of Ali Ekron Bey, former governor of Jerusalem, and Mme. Hedary represented the Near East, and Princess Der Ling, one-time lady-in-waiting to the former Dowager Empress of China, was the envoy of the Far East. (International Newsreel photo.)

The hospital has put the diet in the patient at the lowest possible figure in order that medical attention may be open to the public class.

The Deaconess Aid Society has recently completed a policy of \$1000 to the hospital and the Deaconess Aid Society constantly fills in by their sewing and gifts the equipment needed for the work with the children.

The annual appeal is now being sent out to those interested in the work of the hospital for funds in the year's budget of \$200,000.

GIRL INJURED IN MURPHY AUTO CRASH DIES

Lowell Feb. 5 (AP)—Despite the efforts of 15 physicians and surgeons to save her life, Miss Evelyn Husband, 15, daughter of Mr. and Mrs. James D. Husband of Amsterdam, N. Y., died today in an automobile accident here.

Although several of the physicians and surgeons in consultation over the girl's condition were noted specialists, their efforts failed to bring any improvement from the time she was removed to the hospital until she died. Her spine was fractured.

The injury was explained while she was riding in the automobile of Mr. Francis D. Murphy, a leading real-estate broker of Boston, N. H., and manager of the J. F. McKelown Shoe Co.

Miss Murphy is still in a serious condition from shock. Mrs. Murphy, their daughter Eleanor, and son Francis, were recovering from less serious injuries.

Miss Husband and Miss Murphy were classmates at a Lowell school, and Miss Murphy with her wife, son and daughter, called to take them to Boston on Saturday. The auto skidded on a wet and was wrecked. All six occupants were injured.

U. S. Paris Attache to Wed Mrs. Goossens

New York Feb. 5 (AP)—A London dispatch to the New York Times today said that notice had been entered at the Kensington Registry of the forthcoming marriage of Daniel Joseph Hogan, assistant commercial attaché at the American embassy in Paris, to Mrs. Dorothy Goossens, Mrs. Goossens is the former wife of Eugene Goossens, conductor and composer.

At Mrs. Goossens' residence in London it was said that she was ill with influenza. She was formerly Mrs. Dorothy Doleworth. She and Goossens married in 1919 and had one daughter.

Move to Stop School Children Gambling

Chicago Feb. 5 (AP)—School authorities today renewed efforts to prevent gambling in the vicinity of schools.

Acting on the complaint of parents, police arrested George Glover, who they charged was taking the bets of school children on horse races. Wagers of 50 and 75 cents the sums representing the children's lunch money, were accepted, police charged. Glover was arrested as he sat in an automobile parked near the school.

Glover later was freed by Judge Alfred Erickson, who declared there was no evidence to show gambling. Police had been ordered not to molest the children, so there was no

testimony as to what dealings if any, they had with Glover.

51 Years' Fishing Nets Man, 75, \$165,000

Monroe Mich. Feb. 5 (AP)—"Fishing them in" proved a paying business for Antoine Jacobs, 75, and a pioneer resident in this township.

Having fished for over 51 years, Jacobs has retired after amassing a small fortune of approximately \$165,000 from the sale of pike, whitefish, catfish, perch and bull heads.

Finns Save Ship Crew

Helsingfors, Finland, Feb. 5 (AP)—Finnish pilot boats today succeeded in rescuing all the crew of the Danish freighter Nelly, wrecked Sunday during a storm in the Gulf of Finland. Storms and gales hitherto have prevented rescue boats approaching.

Millions More stop "dosing" COLDS

EVERY year since the introduction of Vicks VapoRub, more and more people have given up the old-fashioned way of "dosing" colds and turned to this modern external method. Today the whole trend of medical practice is away from "needless dosing."

Mothers of young children especially appreciate Vicks, because it cannot upset delicate stomachs as "dosing" is so apt to do. Just rubbed on, Vicks acts through the skin like a plaster, and at the same time, it gives off medicated vapors which are inhaled direct to the inflamed air-passages.

Take pace with the ever-increasing demand for the better method of treating colds, the famous Vicks salve has again been changed, as there are now "Over 26 Million Jars Used Yearly."

MRS. H. W. SIMMONDS .. married ten years, has hands lovely as a Bride's

"My secret is Lux in the Dishpan,"

this charming wife says

"I HAVE been married more than ten years, and have done all my own work, yet my hands look as nice as they did on my wedding day, thanks to Lux," writes Mrs. Harold W. Simmonds.

Modern young homemakers themselves discovered this secret of keeping hands delicately white and smooth—femininely appealing. They first noticed how nice their hands looked after Luxing their fine things... then began using Lux for dishes, too!

Of nearly 200 young wives in 11 large cities, 96 out of every 100 are keeping hands as young and dainty as

For less than 1¢ a day—hands like a bride's! Lux for dishes—marvelously economical beauty care for the hands!

when they were married, by using Lux. For dishes and the many other soap and water tasks about the house!

They know that ordinary, coarse soaps leave hands red and rough, while Lux suds protect the precious beauty oils of the skin... keeping busy hands smooth, white, adorably young looking.

Lux for all your dishes costs less than 1¢ a day. Lovely, smooth white hands for such a tiny price!

305 Famous Beauty Shops say:

"We actually can't tell the difference between the hands of a woman with maids to do all her work and the smooth, white hands of a woman who uses Lux in the dishpan!"

Hits Proposal to Allow Beer and Light Wine

Editor Boston American:

I have been reading your issue of February 4, and am very glad to see the new proposal for the sale of beer and light wine. I am sure that the people of this city will support the best thing that has happened in years.

How could those officers be so stupid as to make such a mistake? I am sure that they are more than willing to make them. So why does the city make up and say that they have the power? Why not give the men for the good work they have done?

I would like to say to the people who are in favor of light wine and beer: the best way to get the prohibitionists out of our city is to give them the same treatment that you give them. If you give them the same treatment that you give them, they will be out of our city.

Now the city takes about as much as a man would if he signed the passage of a law that would allow the sale of beer and light wine. The city should make a law that would allow the sale of beer and light wine. The city should make a law that would allow the sale of beer and light wine.

Now the city takes about as much as a man would if he signed the passage of a law that would allow the sale of beer and light wine. The city should make a law that would allow the sale of beer and light wine. The city should make a law that would allow the sale of beer and light wine.

MOTHER HUBBARD BREAD

The perfected loaf

"You know how Marjorie does get certain set ideas. Imagine it—she tried to tell me that all bread is alike."

"And then I said 'It's quite clear, Marjorie, that you haven't tried the new Mother Hubbard Bread. When you have, I am sure you will change your ideas about bread entirely.'"

And that is just what is happening everywhere. Women are changing their ideas about bread, ever since the new Mother Hubbard—the perfected loaf—was announced.

No other bread is quite like Mother Hubbard for the perfection of crust, slicing, texture, taste, toasting-quality. In Mother Hubbard alone these, and other important features, have been brought to so high a degree of perfection that we call it the perfected loaf.

GASOLINE
MADE BETTER

THAT GOOD GULF GASOLINE is now Anti-Knock quality —100° F. end point — at no extra cost. This Anti-Knock quality stops the knocks in the new high compression motors and greatly improves motor efficiency.

The 100° F. End Point gives instant and complete vaporization to the last drop — many motorists may not know what 100° F. End Point means but every motorist can tell the difference in *his car* between the new Good Gulf Gasoline and the ordinary gasoline with 437° F. End Point.

Ordinary motor gasoline may be loaded with Anti-Knock Chemicals, but the heavy non-burning ends remains to retard engine performance...

This combination of high anti-knock properties and volatility (the 100° F. End Point) makes the new Good Gulf Gasoline the equal of many premium gasolines and far superior to all non-premium fuels. There is but one better gas—GULF NO-NOX MOTOR FUEL AVIATION GRADE (374° F. End Point.)

Remember there is no extra cost for this new Good Gulf Gasoline.

Hero's Baby

The New Boy at Mrs. Troy's

ADDITION of a new baby to the family of the late James J. Troy will arouse public interest in the Troy Relief Fund. The Troy children now number five, three girls and two boys.

The eldest is 11 years of age. They did not lose his life in the performance of his duty, shot dead three weeks ago while giving chase to a burglar.

As the soldier dies for his country, so the police officer, killed under such circumstances as surrounded the death of Troy, falls for his city and its people.

This young husband and father died for every one of us and in the absence of an adequate public pension it is up to us to take care of his widow and children.

Give, and give generously, to the Troy fund—and then take the trouble to write to your representatives on Beacon Hill and urge such legislation as will make it unnecessary to pass the hat for the relief of dependents of the heroes of our public service.

Old Age Security

How the Pension Plan Grows in Favor

HOW strong and widespread has become the opinion that old-age relief is absolutely necessary—in SOME form—was demonstrated a day or two ago by the character, no less than the number, of those who went to the State House to favor the Wendell P. Thorell bill.

Twelve or fifteen years ago, the "army" behind this measure of social justice consisted of—W. P. Thorell!

And in 1930? Appearances were recorded, on the favorable side, of representatives of the Greater Boston Federation of Churches, the Massachusetts Federation of Churches, the Boston Central Labor Union, the Massachusetts State branch of the American Federation of Labor, the Consumers' League, the Federated Women's Clubs, the Women's Relief Corps, the Volunteers of America, the Salvation Army and many representatives dropped around to ask to be registered in favor. No longer is the movement regarded as of small importance and with no backing.

The principal objection to the pensioning of women at 60, and men at 65 years of age, is that of expense.

As to that, it has yet to be determined whether an Old-Age Annuity system could cost much more than our present care of the poor in almshouses.

It is also held, by some, that the idea is "socialistic." But that objection used to be urged against the proposal to vestibule the platforms of trolley cars, in order that motormen might no longer be exposed to sleet and snow and wintry wind.

Rapid Transit

Asset to the Community

ONE or two paragraphs of the annual report of the Board of Public Trustees of the Elevated stand out as worthy of the immediate attention of not only public officials but industrial leaders and realty owners.

These are the paragraphs: "The trustees believe that Boston cannot afford to neglect the present basic fact of development of Boston as a city, and cannot develop the best social conditions without complete modernization of transportation, both in street and in rapid transit. "Rapid transit, not many years ago looked upon as a luxury, has become a necessity. It is vital in the future development of Boston as a city, and its neglect would be a serious handicap to its growth. "The demand for such service cannot be met by the existing lines, which are overcrowded and antiquated. It is the duty of the trustees to provide for the future of the city by the improvement of its rapid transit system. "In other words: "1—There is REAL need of MORE rapid transit. "2—Rapid transit PAYS, as witness the 30,000 passengers who now make daily use of the Dorchester tunnel beyond Andrew Square. "3—Rapid transit increases the value of real estate, calls for higher rentals, helps industry and is of distinct value to retail trade. "Question: Should the car-rider be asked to pay the entire bill?"

The annual report shows that although not nearly as many passengers were carried last year—gross receipts fell three-quarters of a million dollars—NET revenue was up \$94,072, as compared with a net in 1929 of \$40,000. "The explanation is 'economical.' Operating expenses were the 'lowest since 1922.' Public trustees and operating staff appear to be doing a good job.

The Dry Cleaners of the Jungle

By T. E. Powers

Copyright, 1930

It's one of my most expensive gowns—I'm taking it to the dry cleaners.

I have always admired you in that panel gown.

I wish you would dry clean this dress and have it ready by Saturday for the jungle ball!

Here it is—A VERY DIFFICULT JOB IT WAS!

Oh yes, it's all cleaned! \$2.00, please!

I've come for my gown that was to be dry cleaned.

2.—The Minutest Animals

MOEBIA belongs to an exceedingly large and varied phylum of minute animals, the Protozoa.

It is the simplest of the least organized members of the group. Most of the protozoa have definite and asexual shapes, and asexual reproduction is the rule.

They spin out, neither do they fold. But like the lilies of the field they make a darned nice bouquet.

They are the official weight-peters of prosperity.

Their stomachs are arched with success and they wear their kidneys under their eyes.

These flank scolds of big business are in Washington to see that their clients get a square roll with loaded dice. Every once in a while they are called in to a reform wheel, these gentlemen are loaded with success and they wear their kidneys under their eyes.

Whether they represent the society for parking chewing gum on chair legs or the American Federation for the perpetuation of paper hangers, they never get any better from playing in straw piles.

The Marry-Go-Round

By HELEN ROWLAND

"The older you grow, the less you know about life," remarked Mrs. Green as she passed the cigarette and the bonbons simultaneously.

"And the less sure you become of the future," continued Mrs. Green, "I believe in modernism, trial marriage and a quick and painless surgical operation, the moment the ties begin to chafe."

"In all the old 'living-without-marriage' stuff," laughed Mrs. Divot, "I have seen all the matrimonial wrecks scattered around me, and read of these two-year trials, 'love-me-and-leave-me' marriages. I inclined to go for the old-fashioned Victorian. Look at Russia, for instance—where the only grounds you have to offer for getting a divorce is that you are MARRIED."

"Well, I'm looking at it. What about it?" asked Mrs. Divot cheerfully.

"There's at least one divorce for every marriage over there, according to statistics," stated Mrs. Green. "And the women are bound to protest bitterly, at the ease with which the men junk the old wife and take a new one, every time they get a new one."
